Studio Day

Debriefing the Lesson

Name: _____

1. Reflect on how today's lesson contributed towards achieving the mathematical goals of the unit. What evidence supports this? What changes might you make?

2. Reflect on the factors associated with maintenance and/or decline of cognitive demand throughout this lesson. What evidence supports this? What changes might you make?

3. Reflect on the extent to which the mathematical ideas were made accessible to all of the students. What evidence supports this? What changes might you make?

4. Reflect on the extent to which the Standards for Mathematical Practice were in evidence throughout the lesson. What evidence supports this? What changes might you make?

5. To what extent did you observe_____? What evidence supports this? What changes might you make?

6. To what extent did you observe_____? What evidence supports this? What changes might you make?

7. Did this lesson have any unexpected outcomes in student learning?
