

# THE MATHEMATICS EDUCATION COLLABORATIVE (MEC) TRANSFORMING MATHEMATICS CLASSROOMS THROUGH NUMBER TALKS: A LEADERSHIP ACADEMY

Summer 2017 – Spring 2020

## Designed for schools/districts who are...

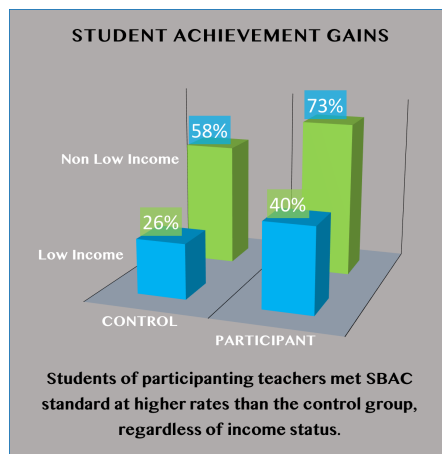

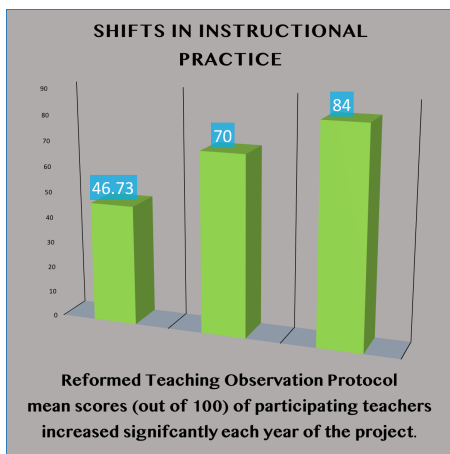

- preparing to implement Number Talks for the first time OR currently using Number Talks and ready to take them to a deeper and more sustainable level
- interested in building the capacity of teachers as leaders
- committed to high quality mathematics education for all students

## Each year participants will...

- attend one 2-day Number Talk Institute (summer)
- attend one 2-day Leadership Session (summer)
- attend four virtual webinars (school year evenings)
- have virtual access to MEC educators for school year support (in-person school year support can be arranged for an additional fee)

## MEC Professional Development has Real Impact

Results from the MEC MSP, an OSPI federally funded Math and Science Partnership Grant: <http://www.mec-math.org/mec-msp/>

Letters of Commitment are needed by MEC no later than **December 16, 2016**.

Please contact us today to take advantage of this exciting opportunity!

Email: [debbieo@mec-math.org](mailto:debbieo@mec-math.org)

Find more detailed project information at

<http://www.mec-math.org/number-talks-project-washington/>

You are invited to support a team of two or more teachers/coaches who will...

... learn how Number Talks can transform mathematics classrooms

... experience and learn how to lead a series of 2-hour Number Talk PD Sessions

... join a statewide team of active and engaged mathematics teacher leaders

## COST TO SCHOOLS/DISTRICTS

MEC is seeking a grant from College Spark Washington to help support this work.

The remaining per person cost to schools/districts will be \$375 per year.

Travel and stipend costs, if needed, are the responsibility of schools/districts.
