

Family Math Night: Mathematics and Your Child's Future  
Presented and facilitated by Ruth Parker, co-author of  
Making Number Talks Matter

# FAMILY MATH NIGHT

MONDAY, MARCH 5, 2018  
5 PM—7:30 PM  
QUINCY HIGH SCHOOL PAC

**DINNER  
PROVIDED  
5-5:30 PM**

**FREE  
CHILD  
CARE**

**SPANISH  
TRANSLATION  
AVAILABLE**

During this session, participants examine:

- The need for numerical reasoning to be at the center of all work with numbers,
- The need for inquiry based K-12 mathematics programs, and
- Using NUMBER TALKS to develop number sense and mathematical reasoning.

The two-hour session is interactive, and appropriate for large groups of parents, teachers, school and district leaders, school board members and other community members. K-8 students will stay in the presentation. Non-school age children will have separate activities.
